

Creating Tours in Google Earth (v. 5)

The screenshot shows the Google Earth interface with a 'New Placemark' dialog box open. The dialog box has the following fields and options:

- Name:** Untitled Placemark
- Latitude:** 21°17'31.14"N
- Longitude:** 157°49'18.68"W
- Description:** A large text area for adding a description.
- Style, Color, View, Altitude:** Tabs for customizing the placemark.
- OK** and **Cancel** buttons at the bottom.

Numbered callouts provide instructions for each step:

1. Click here to create a new placemark. The **New Placemark** box opens.
2. This is the new placemark.
3. Choose an icon.
4. Name the new placemark.
5. Add a description for the placemark. (This is where you would add html to add picture, links, video, etc.)
6. Click OK.
7. Finally drag the new placemark to a folder of your choice, or create a new folder. Don't leave it in temporary places or it will be deleted when you log off.
